Ed

You must have been looking at an old draft or other document. If you look at the notes attached to the calendar invite it includes you guys (and HDR via phone)

Doug

I have only just found the time to review your emails containing the EPA highlights and NG & Navy presentations from our June 22nd meeting in your office and I wanted to point out a few observations.

1. NG and the Navy are not listed as attendees.
2. This is the NG OU2 TAC meeting in addition to the NWIRP Quarterly.
3. HDR was not in attendance, but a topic on the DEC's agenda.

Ed

Hi

I forgot to add the presentations to the final June 22 meeting notes that were attached to the invite from last week; you had received these presentations when the draft notes were sent to you earlier in the summer.

Sorry for the omission.

Subject: NWIRP Quarterly Meeting

When: Thursday, October 29, 2015 10:30 AM-1:30 PM (UTC-05:00) Eastern Time (US & Canada).

Where: EPA R2 NYC-27th Floor Room 27B

Hi

Hope you are all having a great end to the summer.

Based upon feedback on potential meeting dates October 29th works out best. A draft agenda is attached; if you would like to add agenda topics or modify the existing topics please let Jim and me know.

I have also attached a final version of the meeting notes from the June 22; some edits were made to the draft to reflect changes requested by MWD, Navy and NG. The changes were mostly minor things; the exception being Navy's update wrt capturing the 500 pbb concentration of contaminants as follows: "[Note: The Navy has since confirmed it will attempt to capture the 500 ppb concentration of contaminants but cannot guarantee complete capture of the 500 ppb due to the lack of open space to site the extraction well(s) in an optimum location.]"

Regards,

Doug
